THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION NOT THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

BIRMINGHAM MI 48009

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or Fax (571)-273-2885

INSTRUCTIONS: This appropriate. Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 883 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 883 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

EXAMINER'S AMENDMENT

 An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David J. Gaskev (Reg. No. 37.139) on 06/12/08.

The application has been amended as follows:

Claim 1 has been cancelled

Replace **claim 2** with the following:

--A Method of reducing intermodulation distortion within a linear amplifier comprising the steps of:

sampling the output of a multiple carrier linear amplifier radio frequency signal; detecting the sampled signal at frequency increments and quantizing and nulling

the intermodulation distortion; and

determining active sub-bands by scanning a pluratility of carriers corresponding to frequency increments above a threshold, and stalishing the carrier as an active sub-band--

Replace **claim 8** with the following:

--A method of reducing intermodulation distortion within a linear amplifier comprising the steps of:

sampling the output of a multiple carrier linear amplifier radio frequency signal;

Art Unit: 2611

generating a local oscillator signal having predetermined frequency increments fo... fi situated in at least one of predetermined sub-bands:

mixing the sampled radio frequency signal with the local oscillator signal to target the centers of the multiple carriers and generate an intermediate frequency signal;

detecting and digitizing the intermediate frequency signal for quantization and nulling of the intermodulation distortion; and

stepping local oscillator frequency increments f₀ to f₁, and comparing the outputs of the stepping operation to indentify sub-bannds.--

Claim 10 has been cancelled.

Please add the following claim:

--26. A method of reducing intermodulation distortion within a linear amplifier comprising the steps of:

sampling the output of a multiple carrier linear amplifier radio frequency signal;

generating a local oscillator signal having predetermined frequency increments

fo... fi situated in at least one of predetermined sub-bands:

mixing the sampled radio frequency signal with the local oscillator signal to target the centers of the multiple carriers and generate an intermediate frequency signal;

detecting and digitizing the intermediate frequency signal for quantization and nulling of the intermodulation distortion; and

Application/Control Number: 09/820,146 Page 4

Art Unit: 2611

dividing the radio frequency signal into three sub-bands having up to four carriers--

2. The following is an examiner's statement of reasons for allowance:

The present invention relates to method and apparatus for reducing intermodulation in a multiple carrier linear amplifier system. Prior art of record (closest reference, White et al. - US 6.829.471) discloses similar method. Prior art of record. however, taking individually or collectively, fails to suggest a motivation for incorporating in such apparatus and method, as claimed as a whole, including subject matter "determining active sub-bands by scanning a pluratlity of carriers corresponding to frequency increments above a threshold, and stalishing the carrier as an active subband" in independent claim 2 (claims 2-7 depend therefrom); "stepping local oscillator frequency increments fo to fi, and comparing the outputs of the stepping operation to indentify sub-bannds" in independent claims 8, 16 (claims 9, 11-15, 17-22 depend therefrom); "said detector circuit comprising a sample and hold circuit and a synthesizer circuit for generating a local oscillator signal having predetermined frequency increments fo ... fo situated within one of predetermined sub-bands and a mixer for mixing the sampled radio frequency signal with the local oscillator signal and targeting the centers of multiple carriers" in independent claim 23 and "dividing the radio frequency signal into three sub-bands having up to four carriers" in independent claim 26. Thus, claims 2-9, 11-23, 26 are found to be novel and unobvious over prior art of record

Application/Control Number: 09/820,146
Art Unit: 2611

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dac V. Ha whose telephone number is 571-272-3040. The examiner can normally be reached on 4/4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Payne can be reached on 571-272-3024. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
